MIMOSA

Composition	**60%PC 19%CO 11%VI 6%PL 4%AF**
Widith	**140 Cm.**
Dyeing	**Yarn-dyed**
Weight	**966 g/mtl**
Weaving	**Jacquard**
Light fastness	**5**
Pilling	**5**
Abrasion resistance	**90.000 Cicli**

Color: Slight differences may occur

FLAMMABILITY: **California TB117:2013**
C&M BS 5852.1.1979

Soft fabric with a characterized three-dimensional effect by the presence of viscose chenille. It may present a variation in tone in the most used parts due to the inevitable crushing of the chenille fur. However, this effect is part of the characteristics of chenille coverings. It is advisable to dry clean the covers and brush the fabric with a soft brush to reorient the hair. If necessary, steam the fabric from the wrong side while maintaining it a distance of 30 cm
